

Amendments to the Claims

The following listing of claims shall replace all prior listings and versions of claims in this application.

Listing of Claims

1. (Currently Amended) A method for preparing an acrylic-modified chlorinated polyolefin resin, which comprises graft-copolymerizing an acid-modified chlorinated polyolefin resin with a monomer mixture containing a (meth)acrylate ester monomer having one hydroxyl group and ~~the other~~ another vinyl monomer in the presence of a cyclic ether compound.

2. (Original) The method for preparing an acrylic-modified chlorinated polyolefin resin according to claim 1, wherein the cyclic ether compound is added in the amount of 1 to 100 parts by weight based on 100 parts by weight of the acid-modified chlorinated polyolefin resin.

3. (Original) The method for preparing an acrylic-modified chlorinated polyolefin resin according to claim 1, wherein the cyclic ether compound is dioxane and/or 1,3-dioxolane.

4. (Currently Amended) An acrylic-modified chlorinated polyolefin resin obtained by graft-copolymerizing an acid-modified chlorinated polyolefin resin with a monomer mixture containing a (meth)acrylate ester monomer having one hydroxyl group and ~~the other~~ another vinyl monomer in the presence of a cyclic ether compound.

5. (Original) A coating composition for polyolefin material, comprising: at least the acrylic-modified chlorinated polyolefin resin according to claim 4; and 5 to 40% by weight of an acid-modified chlorinated in resin.
